Dear Ronnie and Josh,

Thank you for spending time with us to teach us about light bulbs. Thank you for the gifts and now I know what are the names of the light bulbs. One is Compact fluorescent light bulb which is the energy safer light bulb. Another one is incandescent light bulb which is the one that give off alot of heat. When you gave us the gifts I felt thankful and happy. When I went home yesterday I told my mom my dad and my brother about the CFL Light Bulbs and the incandescent light bulbs and they said they don't even know about this. When you taught about light bulbs you taught us in a fun way by giving us gifts and putting on a slideshow.

We appreciate everything you did for us yesterday we hope you come back soon. Also teach us more about light bulb and energy.

Sincerely

Shyane
